COMMONWEALTH OF KENTUCKY

BEFORE THE PUBLIC SERVICE COMMISSION

* * * * *

In the Matter of:

AN ADJUSTMENT OF GAS RATES)
OF THE UNION LIGHT, HEAT AND) CASE NO. 8373
POWER COMPANY)

ORDER

IT IS ORDERED that Union Light, Heat and Power Company shall file an original and six copies of the following information with the Commission, with a copy to all parties of record, by December 18, 1981. Each copy of the data requested should be placed in a bound volume with each item tabbed. Where a number of sheets are required for an item, each sheet should be appropriately indexed, for example, Item 1(a), Sheet 2 of 6. Careful attention should be given to copied material to insure that it is legible. When an item is needed for both the electric department and the gas department, provide this information on separate schedules.

1. In comparative form, a total company income statement, a statement of changes in financial position, and a balance sheet for the test year and the twelve month period immediately preceding the test year.

- 2. A trial balance as of the last day of the test year (all income statement accounts should show activity for 12 months) showing account number, account title, and amount. Clearly identify accounts maintained on a total company basis and accounts maintained on a separate basis for each the gas department and the electric departments. Show the balance in each control and all underlying subaccounts per company books.
- 3. a. The balance in each current asset and each current liability account and subaccount included in the applicant's chart of accounts by months for the test year. Additionally, show total current assets, total current liabilities and the net current position by months, annually, and the 13 month average for the test year. Provide a reconciliation of current assets, current liabilities and net current position provided in response to the above with the current assets and current liabilities as shown on the balance sheet for each month of the test year.
- b. A calculation of total company average (thirteen month) and end-of-period debt, preference and preferred stock, and common equity capital for the test year in the format as shown in Format 3b to this request.
- c. A calculation of the average (thirteen month) and end-of-period long-term debt composite interest and preferred stock costs for the twelve months of the test year. Supporting details underlying calculations should be provided. The average long-term debt composite interest cost is calculated by dividing the sum of book interest accrued on long-term debt and related

amortization of discount, premium, and issuance cost by average long-term debt as calculated in format 3b, column c, line 15.

- 4. List each general office account (asset, reserve, and expense accounts) for the gas department covering the 12 months of the test year. If any amounts were allocated show a calculation of the factor used to allocate each amount.
- 5. The following monthly account balances and a calculation of the average (13 month) account balances for the test year for the total company and the gas department:
 - a. Plant in service (Account 101)
 - b. Plant purchased or sold (Account 102)
 - c. Property held for future use (Account 105)
 - d. Construction work in progress (Account 107)
 - e. Completed construction not classified (Account 106)
 - f. Depreciation reserve (Account 108)
 - g. Plant acquisition adjustment (Account 114)
 - h. Amortization of utility plant acquisition adjustment (Account 115)
 - i. Materials and supplies (include all accounts and subaccounts)
 - j. Balance in accounts payable applicable to each account in i above. (If actual is indeterminable, give reasonable estimate)
 - k. Unamortized investment credit Pre-Revenue Act of 1971
 - 1. Unamortized investment credit Revenue Act of 1971
 - m. Accumulated deferred income taxes
 - n. A summary of customer deposits as shown in Format 5n to this request
 - o. Computation and development of minimum cash requirements

p. Balance in accounts payable applicable to amounts included in utility plant in service (If actual is indeterminable, give reasonable estimate)

- q. Balance in accounts payable applicable to amounts included in plant under construction (If actual is indeterminable, give reasonable estimate)
- r. Short-term borrowings
- s. Interest on short-term borrowings (expense)
- 6. The cash account balances at the beginning of the test year and at the end of each month during the test year for total company.
- 7. Provide the following information for each item of gas property held for future use at the end of the test year:
 - a. Description of property
 - b. Location
 - c. Date purchased
 - d. Cost
 - e. Estimated date to be placed in service
 - f. Brief description of intended use
 - g. Current status of each project
- 8. Schedules in comparative form showing by months for the test year and the year preceding the test year the total company balance in each gas plant and reserve account or subaccount included in the applicant's chart of accounts as shown in Format 8.
- 9. Provide the journal entries relating to the purchase of gas utility plant acquired as an operating unit or system by purchase, merger, consolidation, liquidation, or otherwise since the inception of the Company. Also, a schedule showing the calculation of the acquisition adjustment at the date of purchase of

each item of utility plant, the amortization period, and the unamortized balance at the end of the test year.

- 10. The detailed workpapers showing calculations supporting all accounting, pro forma, end-of-period, and proposed rate adjustments in the rate application to revenue, expense, investment and reserve accounts for the test year and a complete detailed narrative explanation of each adjustment including the reason why each adjustment is required. Explain all components used in each calculation. Index each calculation to the accounting, pro forma, end-of-period, and proposed rate adjustment which it supports.
- 11. Provide copies of all current labor contracts and agreements and copies of the most recent contracts and agreements previously in effect.
- 12. Explain in detail the non-recurring nature of revenues attributable to Incremental Gas Pricing as mandated by the Natural Gas Policy Act of 1978.
- 13. Provide work papers showing calculations for adjustment to gas revenues and expenses for normal temperatures.
- of the balance in the revenue accounts for each month of the test year to the same month of the preceding year for each revenue account or subaccount included in the applicant's chart of accounts. Include appropriate footnotes to show the month each rate increase was granted and the month the full increase was recorded in the accounts. See Format 8.

15. a. For the gas department, a schedule showing a comparison of the balance in the operating expense accounts for each month of the test year to the same month of the preceding year for each account or subaccount included in the applicant's chart of accounts. See Format 8.

b. For the gas department, a schedule in comparative form showing the operating expense account balance for the test year and each of the 5 years preceding the test year for each account or subaccounts included in the applicant's annual report. (Gas - FERC Form No. 2, pages 320-325). Show the percentage of increase of each year over the prior year.

- c. A schedule of total company salaries and wages for the test year and each of the 5 calendar years preceding the test year in the format as shown in Format 15c to this request.
- d. A schedule showing the percentage of increase in salaries and wages for both union and non-union employees for the test year and the 5 preceding years.
- 16. The following tax data for the test year for the total company and the gas department.

a. Income taxes

- (1) Federal operating income taxes deferred accelerated tax depreciation
- (2) Federal operating income taxes deferred other (explain)
- (3) Federal income taxes operating
- (4) Income credits resulting from prior deferrals of Federal income taxes

(5) Investment tax credit net

- (i) Investment credit realized
- (ii) Investment credit amortized Pre-Revenue Act of 1971
- (iii) Investment credit amortized Revenue Act of 1971
- (6) Provide the information in 16a (1) through 16a (4) for state income taxes
- (7) Reconciliation of book to taxable income as shown in Format 16a (7) and a calculation of the book Federal and State income tax expense for the test year using book taxable income as the starting point
- (8) A copy of Federal and state income tax returns for the taxable year ended during the test year including supporting schedules
- (9) Schedule of franchise fees paid to cities, towns or municipalities during the test year including the basis of these fees
- b. An analysis of other operating taxes in the format as shown in attached Format 16b.
- 17. A schedule of gas department net income per MCF sold per company books for the test year and the 5 calendar years preceding the test year. This data should be provided as shown in Format 17 attached.
- 18. The comparative operating statistics for the gas department as shown in Format 18 attached.
- 19. A schedule of average gas plant in service per MCF sold by account per company books for the test year and the 5 calendar years preceding the test year. This data should be provided in the format as shown in Format 19 to this request.

- 20. A statement of gas plant in service per company books for the test year. This data should be presented in the format as shown in Format 20 to this request.
- 21. For the gas department, provide the following information. If any amounts were allocated, show a calculation of the factor used to allocate each amount.
 - a. A detailed analysis of all charges booked during the test period for advertising expenditures. This analysis should include a complete breakdown of Account 913 Advertising Expenses, as shown in Format 21a attached and further should show any other advertising expenditures included in any other expense accounts. The analysis should be specific as to the purpose of the expenditure and the expected benefit to be derived.
 - b. An analysis of Account 930 Miscellaneous General Expenses, for the test period. This analysis should show a complete breakdown of this account as shown in attached Format 21b and further provide all detailed working papers supporting this analysis. As a minimum, the work papers should show the date, vendor, reference (i.e., voucher no., etc.), dollar amount and brief description of each expenditure. Detailed analysis is not required for amounts of less than \$500 provided the items are grouped by classes as shown in Format 21b attached.
 - c. An analysis of Account 426 Other Income Deductions, for the test period. This analysis should show a complete breakdown of this account as shown in attached Format 21c, and further provide all detailed working papers supporting this analysis. As a minimum the work papers should show the date, vendor, reference (i.e., voucher no., etc.), dollar amount and brief description of each expenditure. Detailed analysis is not required for amounts of less than \$500 provided the items are grouped by classes as shown in Format 21c attached.
- 22. Provide a detailed analysis of expenses incurred during the test year for professional services, as shown in Format 22, and all working papers supporting the analysis. At minimum, the working papers should show the payee, dollar amount, reference

- (i.e., voucher no., etc.), account charged, hourly rates and time charged to the company according to each invoice, and a description of the service provided.
- 23. A detailed analysis of contributions for charitable and political purposes (in cash or services), if any, recorded in accounts other than Account 426. This analysis should indicate the amount of the expenditure, the recipient of the contribution and the specific account charged. If amounts are allocated to the electric department and the gas department, show a calculation of the factor used to allocate each amount.
- 24. a. For the gas department, provide a statement describing the applicant's lobbying activities and a schedule showing the name of the individual, his salary, his organizations or trade associations involved in and all company-paid or reimbursed expenses or allowances and the account charged for all personnel for whom a principal function is that of lobbying, on the local, state, or national level. If any amounts are allocated, show a calculation of the factor used to allocate each amount.
- b. A schedule showing the test year and the year preceding the test year with each year shown separately the following information regarding the applicant's investments in subsidiaries and joint ventures:
 - (1) Name of subsidiary or joint venture
 - (2) Date of initial investment
 - (3) Amount and type of investment made for each of the 2 years included in this report.

(4) Balance sheet and income statement for the test year and the year preceding the test year. Where only internal statements are prepared, furnish copies of these.

- (5) Show on a separate schedule all dividends or income of any type received by applicant from its subsidiaries or joint ventures for each of the 2 year report periods and indicate how this income is reflected in the reports filed with the Commission and the stockholder reports.
- (6) Name of officers of each of the subsidiaries or joint ventures, officer's annual compensation, and portion of compensation charged to the subsidiary or joint venture. Also, indicate the position each officer holds with the applicant and the compensation received from the applicant.
- 25. An analysis of purchased gas costs by month during the test year. These costs should be separated into demand and energy costs billed by each supplier.
- 26. An analysis of transactions by month to prepayments relative to pruchased gas during the test year. A narrative should be given for the accounting procedures with respect to these transactions.
- 27. Provide the following information with regard to uncollectible accounts for the test year and 5 preceding calendar years (taxable year acceptable) for total company and the gas department.
 - Reserve account balance at the beginning of the year
 - b. Charges to reserve account (accounts charged off)
 - c. Credits to reserve account
 - d. Current year provision
 - e. Reserve account balance at the end of the year
 - f. Percent of provision to total revenue.

- 28. Provide a detailed analysis of the retained earnings account for the test period and the 12-month period immediately preceding the test period.
- 29. a. A listing of non-utility property and property taxes and account where amounts are recorded.
- b. A schedule for all non-utility property giving a description, the date purchased and the cost.
 - 30. Rates of return in Format 30 attached.
 - 31. Employee data in Format 31 attached.
- 32. The studies for the test year including all applicable work papers which are the basis of common plant allocations and expenses account allocations.
- 33. a. Capital structure at end of each calendar year for the previous 10 years.
 - b. Capital structure at end of latest available quarter.
 - c. Capital structure at end of test period.

 Item 33a, 33b and 33c should include the following information:
 - (1) Class of capital
 - (2) Amount of each class (\$)
 - (3) Ratio of each class to total
 - (4) Total capitalization (\$)
- 34. a. List all outstanding issues of long-term debt as of the end of the latest calendar year and at the end of the test period. Item 34a should include the following information for each outstanding issue of long-term debt:

- (1) Date of maturity
- (2) Date of issue
- (3) Amount outstanding (\$)
- (4) Coupon interest rate (%)
- (5) Cost rate at issue (%)
- (6) Cost rate to maturity (%)
- (7) Bond rating at time of issue (Moody's Standard & Poor's, etc.)
- (8) Type of obligation
- b. Provide calculations of embedded cost of long-term debt at the end of each calendar year for the previous 10 years.

 Also provide this calculation for the end of the test period.
- 35. a. List all outstanding issues of preferred stock as of end of the latest calendar year and at the end of the historical test period. Item 35a should include the following information for each outstanding issue of preferred stock:
 - (1) Date of issue
 - (2) Amount sold (\$)
 - (3) Amount outstanding (\$)
 - (4) Dividend rate
 - (5) Convertibility features if any
 - (6) Cost rate at issue (%)
- b. Provide calculations of embedded cost calculations of preferred stock at the end of each of the previous 10 years.

 Also, provide this calculation for the test period.

- 36. a. Provide a listing of all issues of common stock in the primary market during the most recent 10-year period. For Item a provide the following information:
 - (1) Date of issue
 - (2) Number of shares issued
 - (3) Date of announcement and registration
 - (4) Price per share (net to company) (\$)
 - (5) Book value per share at time of issue (\$)
 - (6) Selling expenses as % of gross issue amount
 - (7) Net proceeds to company
 - (8) Price per share to the public
- b. Provide the following information on a quarterly and yearly basis for the most recent 10-year period available through the latest available quarter. (Items (5) through (7) refer to yearly figures only.)
 - (1) Average number of shares of common outstanding
 - (2) Book value at end of quarter (year)
 - (3) Quarterly (yearly) earnings per share
 - (4) Declared quarterly (yearly) dividend rate per share
 - (5) Rate of return on average common equity
 - (6) Rate of return on year-end common equity
- c. Provide monthly market price figures for common stock for each month during the most recent 10-year period. Include the following:
 - (1) Monthly high price
 - (2) Monthly low price

- (3) Monthly closing price
- (4) Note all stock splits by date and type and adjust prices accordingly.

Items 33, 34, 35 and 36 should be provided for the parent: and for the subsidiary where applicable and not previously included in the record.

- 37. Provide figures showing computation of fixed charge coverage ratio (SEC Method, PRETAX, including Short-Term Debt payments) at the end of each of the 10 most recent prior years.
- 38. In comparative form, a statement for the gas department showing rates, charges, terms and conditions, and Service Rules and Regulations presently in effect and those which the applicant seeks to place into effect as well as percentage increases (decreases) for each rate or charge.
- 39. A listing of present or proposed research efforts dealing with the pricing of gas and the current status of such efforts.
- 40. Provide a schedule reflecting the salaries and other compensation of each executive officer for the test year and the preceding 5 calendar years. Include the percentage annual increase and the effective date of each increase.
- 41. Provide an analysis of the Company's expenses for research and development activities for the test year and the 5 preceding calendar years. For the test year, include the following details:
- a. Basis of fees paid to research organizations and the Company's portion of the total revenue of each organization. Where the contribution is monthly, provide the current rate and the effective date.

- b. Details of the research activities conducted by each organization.
- c. Details of services and other benefits provided to the company by each organization during the test year and the calendar year 1980.
- d. Total expenditures of each organization during 1980 including the basic nature of costs incurred by the organization.
- 42. Did any organization listed in Item 41 make any direct or indirect payments for political purposes or lobbying activities during the test year or any of the 5 preceding calendar years? If so, provide the following:
 - a. Amount of payment
 - b. Person or organization receiving payments
- c. Portion of the Company's contribution allocated to these payments. (Provide calculations in support of this determination.)
- 43. Did any organization listed in Item 41 incur expenses for advertising within the definition provided in 807 KAR 5:016E? If so provide the following:
- a. A breakdown of the total cost into these categories: sales or promotional, institutional, conservation and other.
 - b. Forms of media used.
- c. Portion of the Company's contribution allocated to these costs. (Provide calculations in support of this determination.)
 - d. Details of expected benefits to the Company,

- 44. What is the date of the last depreciation study prepared by or for your company?
- 45. What was the interval between the last depreciation study and the next planned study?
- 46. Were the latest depreciation study findings and the recommendations:
 - a. adopted completely?
 - b. adopted with minor exceptions?
 - c. unaccepted?
 - d. if not fully adopted, state the recommendations not adopted and furnish reasons.
- 47. When were the latest depreciation study findings and recommendations implemented?
- 48. For purpose of booking depreciation expense to what depreciable plant base does the company apply accrual rates?
 - a. Average of beginning and end-of-year estimated balances.
 - b. Average of January 1 and July 1 balances.
 - c. End-of-month plant balances.
 - d. Other. Explain,
- 49. If averages of beginning and end-of-year estimated balances are used, are estimated additions revised when actual amounts are known?
 - 50. How is estimated net salvage treated?
 - a. The depreciable plant base is increased or decreased as appropriate.
 - b. The accrual rate is adjusted to reflect the net salvage percentage of plant original cost.

- 51. What method is used to allocate total depreciation requirements to accounting periods falling within the asset life span?
 - a. Straight-line method
 - b. Compound interest or sinking fund method
 - c. Unit production
 - d. Combination of methods. Explain.
- 52. How are mass property units priced for retirement purposes?
 - a. Actual cost
 - b. First in first out
 - c. Moving average cost
 - d. Yearly average cost
 - e. Average costs for each year or bands of years (state band of years used).
 - f. Other. Explain.
- 53. Are company estimates of service life and net salvage determined:
- a. For each unit of property (unit summation for plant groupings, i.e., an entire transmissions line) or by plant location (i.e., a specific compressor station or structure)? Explain.
 - b. For each primary plant account or subaccount?
 - c. For plant functional classification only?
- d. For all system depreciable plant (i.e., a single composite estimate)?
 - e. Other? Explain.

- 54. Are accruals based on estimates of:
 - a. Total service period of the asset(s)?
 - b. Average service life for a plant group?
 - c. Average remaining life for a plant group?
 - d. Other? Specify?
- 55. Are accrual rates based on estimates of:
 - a. Historical gross salvage?
 - b. Future gross salvage?
 - c. Average of historical and future gross salvage?
 - d. Historical cost of removal?
 - e. Future cost of removal?
- f. Average of historical and future of cost removal?

 Done at Frankfort, Kentucky, this 30th day of November, 1981.
